

CANTON DISTILLERY WHISKEY

A hand-crafted blend that adds a degree of softness on the palette while creating layers of depth and complexity. Our distiller decided to bump this up slightly in proof in order to accentuate the finish notes on this thoroughly enjoyable spirit. Housed in a uniquely designed and patented football decanter bottle, each is individually blown and formed in the shape of an actual professional football, right down to the laces on the glass ball. Every bottle sits on a raised pedestal base (all one molded piece) which is a clever replica of an actual football field, complete with the yard lines and end zones.
